

# Cockpit Group is looking for Business Consultants / Cockpit Experts

## Company description

Cockpit Group's mission is to support organizations in the **definition** of their **performance measurement solution** and in the **set up of the appropriated tool**. More precisely, our objective is to bring added value to organizations' data for better decision making. We provide expertise in the fields such as:

- Cockpit or dashboard definition linked to an organization strategy
- Measurement of performance in different domains (HR, Finance, Marketing, Supply chain, projects,...)
- Set up of BI tool based on different technologies (Excel, Xcelsius, Cognos, Microstrategy, Performance point)
- Set up of data collection method and tool

Our pragmatic approach tends to optimize 4 pillars of performance measurement: content, presentation, utilization and automation. Cockpit Group team is recognized for its excellence through two types of consultants:

- Business consultants or Cockpit experts in charge of the definition of the performance measurement solution.
- **BI consultants** in charge of customizing and implementing reporting applications and databases.

More than **200 companies** (Accor, Credit Agricole, CIO, Lego, AGC Flat Glass Europe, Chiquita, STIB, Orès, FIBA ...) worldwide are using our Cockpit approach as a decision tool.

## Position description

As a Cockpit Expert, your function will be to:

- Understand the customer's strategy and be able to translate it into an appropriate performance measurement solution
- Define & detail customers' key performance indicators through workshops & interviews
- Design business-oriented graphical indicators supported by functional analysis
- Define adequate solutions in terms of data collection, storage and transformation
- Define dashboard utilization & collaborative process inside the organization
- Manage a Cockpit project with client & team constraints

## Profile

- Degree in applied economics or Business Engineer
- 0 to 3 years relevant experience in the field of finance, audit, project management or consulting
- Interest for business consultancy, especially in the field of business intelligence and decisional dashboards
- Knowledge in BI tools is a plus
- Fluent in English, Dutch & French
- Well structured and strong analytical skills
- Quality & customers' satisfaction driven
- Good spoken and written communication skills for customers and team collaboration

## Offer

- Interesting client-facing projects for small and big companies in Belgium and Europe (cross-industries)
- Opportunity to work in a young, dynamic, fast-growing environment
- Interesting career opportunities and development, with top level customer relations
- Attractive salary package (incl. company car...)
- Day-to-day coaching and training
